

— Easy-to-hold, rugged body with 3-year guaranteed sensors & 30-hour battery —

Launch of GX-Force

Portable four gas detector

Riken Keiki Co., Ltd. (Head office: Itabashi-ku, Tokyo) announces the launch of portable four gas detector GX-Force.

The GX-Force can detect flammable gases, Oxygen and toxic gases (Carbon monoxide and Hydrogen sulfide), which are cause explosion/Oxygen deficiency/poisoning accidents quickly and reliably by built-in pump aspiration. The CO/H₂S dual sensor enables to reduce the number of sensors from four to three, and the dimension and weight have been downsized (approx. 280 g (-22% compared to the previous version)).

[New product features]

1. 3-year sensor warranty

Sensors with excellent durability and performance provide 3-year warranty.

2. Significantly longer operating time

Longer operating time: Approx. 30 hours (three times longer than conventional model).

3. Easy-to-hold design

Easy to grip. It has only two buttons and can be easily operated by one hand.

4. Rugged body

The product has passed the 3 meter drop endurance test and is resistant to unexpected impacts.

Dustproof and waterproof construction: Equivalent to IP67, making it safe against submersion.

[Start of order]

October 2022

[Scheduled shipping start date] January 2023
